PHYSICAL SECURITY PLAN REVISION CLARIFICATION
REGARDING COMPLIANCE WITH 10 CFR 73.56

Gentlemen:

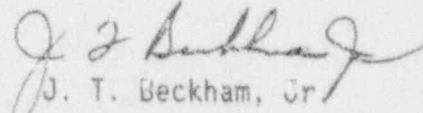

In response to your letter, dated March 27, 1992, addressing Georgia Power Company's (GPC) submittal transmitting the December 1991 revisions to the Plant Hatch Physical Security Plan (PSP), GPC hereby certifies that all elements of Regulatory Guide 5.66 have been implemented to satisfy the requirements of 10 CFR 73.56. This clarification has been incorporated verbatim into the PSP in section 12.1, page 12-1.

Clarification of compliance with the requirements of Regulatory Guide 5.66, which specifies the acceptable levels of authorization for unescorted access to protected and vital areas, is in accordance with the provisions of 10 CFR 50.54(p)(2). GPC's determination the change does not decrease the effectiveness of the Plant Hatch PSP is included as Enclosure 1 to our February 24, 1992 submittal transmitting the administrative changes relative to compliance with the requirements of Regulatory Guide 5.66.

The information contained in the enclosure to this letter is SAFEGUARDS information and, in accordance with the requirements of 10 CFR 73.21 and Section 147 of the Atomic Energy Act of 1954, as amended, should not be placed in the NRC Public Document Room.

If you have any questions or concerns regarding this matter, please contact this office.

Sincerely,

J. T. Beckham, Jr.

SRP/sp
