Docket Nos. STN 50-498; STN 50-499
Houston Industries Organization Change

On February 12, 1996, Houston Lighting & Power (HL&P) implemented an organization change which affects the title and reporting relationship of the Group Vice President, Nuclear. The Group Vice President, Nuclear's title has been changed to Executive Vice President & General Manager, Nuclear. The Executive Vice President & General Manager, Nuclear now reports to the President and Chief Operating Officer of HL&P instead of the Chairman of the Board and Chief Executive Officer of Houston Industries (the parent company of HL&P). No other changes related to the South Texas Project organization are involved in this reorganization. These changes will be reflected in a future revision of the Updated Final Safety Analysis Report. Please update the NRC's distribution lists to reflect the new title.

This reorganization reflects the changing business needs of Houston Industries as the utility industry moves toward deregulation and does not reflect any change in HL&P's commitment to the operation and maintenance of the South Texas Project. The Executive Vice President & General Manager, Nuclear will continue to have direct access both to the Chairman of the Board and Chief Executive Officer and to the Board of Directors of Houston Industries.

If you have any questions, please feel free to contact me at (512) 972-8686.

Sincerely,

L. E. Martin
General Manager,
Nuclear Assurance & Licensing
