Dear Ernie:

I am writing this letter to respond to your request yesterday afternoon that I make a further request in writing for the positions of those individuals who answered, in response to the GPU questionnaires sent to them, that they knew on March 28, 1979, that a hydrogen explosion or combustion had occurred. In my letter of September 12, 1984, I requested the positions, as of that date, of those individuals. In your letter of September 13, 1984, which I did not receive until late that evening and reviewed in my office the next morning, I noted that you had not included in your description of the positions of those individuals whether they worked at Unit 1 or Unit 2. I requested by telephone that TMIA be provided with the unit at which each individual worked. You agreed that you would attempt to cooperate with this request if I made this request to you in writing.

Therefore I am, by this letter, formally requesting that you provide TMIA with information about the unit at which each of the individuals listed in your letter of September 13, 1984, worked.

Further, this letter will confirm the information which I gave to you over the telephone yesterday. There is no Kay Strong in this office. Therefore, any package hand-delivered to me on September 13, 1984, for which such an individual signed, was not received in this office. I appreciate your sending me another copy by hand, yesterday, September 14, GPU's Third Set of Interrogatories and Third Request for Production to TMIA.

Sincerely yours,

Lynne Bernabei
