UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION II
101 MARIETTA STREET, N.W., SUITE 2900
ATLANTA, GEORGIA 30323-0199

FEB 15 1996

Mr. Ellis Godbee, Chairman
Burke County Board of
Commissioners
P.O. Box 62
Waynesboro, GA 30830

Dear Mr. Godbee:

The Nuclear Regulatory Commission (NRC), as part of its responsibility of regulating nuclear power plants, periodically evaluates the performance of its licensees through a program called the Systematic Assessment of Licensee Performance (SALP). Through this program, we review and evaluate our licensees' performance in the four major categories of: Plant Operations, Maintenance, Engineering, and Plant Support. The Plant Support category includes an assessment of licensee performance with regard to emergency preparedness.

On March 14, 1996, representatives of the NRC will meet with the management of the Georgia Power Company to discuss the Vogtle Electric Generating Plant's performance over the past 18 months. You are invited to attend this meeting as an observer.

Subsequent to this meeting, we have scheduled time to meet with you, and other members of your staff as you deem appropriate, to discuss matters of mutual interest with regard to the regulation and performance of Vogtle.

This SALP meeting is scheduled to be conducted at 10:00 a.m. at the Administration Building at the Vogtle site. The proposed meeting with you and other local and State officials will be conducted at the Administration Building at the Vogtle site shortly after the conclusion of the SALP. Your schedule permitting, we look forward to meeting with you at that time. In the interim, please do not hesitate to contact me directly or other members of my staff if we can be of further assistance to you.

Sincerely,

Stewart D. Ebnetter
Regional Administrator
