Docket No. 50-219

DPR-15

Mr. John J. Barton
Vice President and Director
GPU Nuclear Corporation
Oyster Creek Nuclear Generating Station
P. O. Box 388
Forked River, New Jersey 08731

Dear Mr. Barton:

Subject: Inspection No. 50-219/92-09

On April 21-30, 1992, Mr. J. Laughlin and others from this office inspected your emergency preparedness program at the Oyster Creek Nuclear Generating Station in Forked River, various Ocean County emergency management facilities, and the corporate office in Parsippany. Mr. Laughlin discussed our findings with you and other members of your staff at the conclusion of the inspection.

This inspection found that the emergency preparedness program was effectively implemented. Strengths were noted in maintaining the close relationship with local off-site officials and in initiatives to improve emergency preparedness training. However, we are concerned about the apparent lack of effective EP staff follow-up on maintenance and testing of the Technical Support Center ventilation system. This matter will be reviewed further incident to review of your response to the associated violation cited in Inspection Report 50-219/92-04.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:
