Dear Mr. Deddens:

SUBJECT: STAFF REVIEW OF REVISION 6 TO PROCEDURE EIP-2-001, "CLASSIFICATION OF EMERGENCIES" - RIVER BEND STATION (TAC NO. M83292)

Gulf States Utilities' letter of February 14, 1992 (RBG-36513) submitted Revision 6 to the River Bend Station procedure EIP-2-001, "Classification of Emergencies." This revision included changes to emergency action levels. In this letter, GSU stated that the changes did not decrease the level of effectiveness of the approved Emergency Plan and that the revision was being submitted for review and comment prior to implementation.

The NRC staff has completed their review of this submittal and concluded that the changes are in accordance with NRC requirements and guidance and, therefore, are acceptable.

A copy of our related Safety Evaluation is enclosed. If you have any questions concerning this matter, please feel free to contact me at (301) 504-1324. This completes our review of TAC No. M83292.
