SUBJECT: REVIEW OF REVISION 8J TO THE QUAD CITIES NUCLEAR STATION'S ANNEX
TO THE GENERATING STATIONS EMERGENCY PLAN

Dear Mr. Kraft:

In December 1995, Region III received Revision 8J of the Quad Cities Nuclear Power Station's Annex to the Generating Stations Emergency Plan. We have reviewed this revision and determined that it is acceptable and does not decrease the effectiveness of your emergency planning.

Revision 8J incorporated more detailed results of the emergency planning zone's evacuation time estimate study and population distribution. Updated information was provided on several emergency response facilities and onsite assembly areas. One major medical care facility was deleted from the list of offsite support organizations. Some unneeded types of information were deleted. Revision 8J included several other updates and editorial changes.

If you have any questions, please have your staff contact Mr. T. Ploski of my staff at (708) 829-9812.

Sincerely,

James R. Creed, Chief
Plant Support Branch 1
