Dear Mr. Perry:

This confirms our plans as discussed between Isa Yin of my staff, and Dick Phares of your staff to conduct a management meeting at 1:00 p.m. (CDT), on Friday, June 26, 1992, at the Region III Office in Glen Ellyn, Illinois. The purpose of the meeting is to discuss the following topics:

1. Relationship between out-of-service equipment and the need to perform a Safety Evaluation.
2. NSAC-125 guidance for removing components from service for maintenance.
3. Redundancy and independency with regard to conditions described in the USAR.

We will gladly discuss any questions you may have regarding this matter.

Sincerely,

William L. Stoney
for E. G. Greenman, Director
Division of Reactor Projects
