

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

OFFICE OF THE
INSPECTOR GENERAL

March 4, 1992

MEMORANDUM FOR: Frank J. Miraglia, Jr.
Deputy Director, Office of
Nuclear Reactor Regulation

FROM: Kent E. Walker 
Chairman, OIG/OI Investigative
Task Force

SUBJECT: REFERRAL OF POTENTIAL HEALTH AND SAFETY
ISSUES TO NRR

Attached is a memorandum describing a series of technical concerns developed by the task force involving Washington Nuclear Project, Unit 2, and Comanche Peak. These concerns are related to the Thermo-Lag fire barrier system and may have health and safety implications.

These concerns have been discussed with the NRR staff. If there are any technical questions regarding the information in the attached memorandum please contact Joseph Ulie on 8-388-5686.
