EAs 94-164, 94-165, and 94-166

Nebraska Public Power District
ATTN: Guy R. Horn
Vice President - Nuclear
Post Office Box 499
Columbus, Nebraska 68602-0499

Gentlemen:

This will acknowledge receipt of your letter dated January 18, 1995, and your check for \$300,000 in payment for the civil penalty proposed by NRC in a letter dated December 12, 1994.

During our review of your response, we identified several responses that were unclear or appeared to be inconsistent. Specifically:

On page 6 of 16, under Corrective Steps Taken and the Results Achieved, it states, "The District addressed actions regarding barrier redundancy and penetration classifications in a letter dated August 8, 1994." From our review, your letter of August 8, 1994, does not appear to discuss barrier redundancy and penetration classifications.

On page 7 of 16, under item (1) Barrier Redundancy, it states, "Also, programmatic enhancements have been made to control vent, drain, and test line barrier configurations as discussed in the District's response to Inspection Report 94-03." The referenced response to the inspection report did not appear to discuss programmatic enhancements to barrier configurations.

On page 10 of 16, under Corrective Steps Taken and the Results Achieved, it states, "This review has identified significant testing omissions that are being addressed as documented in Licensee Event Report 94-009." The referenced licensee event report did not appear to discuss significant testing omissions.

It is requested that you review the items listed above, in addition to the other portions of your written response to the Notices of Violation, discussed in our letter dated December 12, 1994, and resubmit your response to clarify the information currently available on the docket. Your response should directly address the Notice of Violation and additionally, should address the reasons for the apparent inconsistencies in your January 18, 1995 response noted above. The response should be provided within 30 days of the date of this letter.
