Docket No. 50-456
Docket No. 50-457

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

By letter dated August 30, 1984, Commonwealth Edison Company (CECo) forwarded, to Region III, an item by item discussion response to the BCAP comments, general comments, and protocol which were provided to CECo by Region III correspondence of July 27, 1984. Region III has reviewed the CECo letter and considers it acceptable with one provision. Region III understands that the CECo response to the Region III comment (page II-5) concerning Construction Sampling Reinspection (CSR) sample expansion criteria will be revised to change "may" in paragraph 2 of the response to "will". This change is considered, by Region III, to be necessary to provide assurance that additional samples will be reinspected when design-significant discrepancies having unrelated root causes are identified.

In regards to the CECo response to the Region III comment (page III-3) concerning the BCAP Director reporting to the Manager of Projects, Region III has concluded that the CECo basis for having the BCAP Director report to the Project Manager in lieu of the Manager of Projects is acceptable. Region III acceptance is based on the provisions within the BCAP program which provide that the BCAP activities will not be influenced or affected by other project priorities.

Regarding the CECo modifications to the protocol, Region III has reviewed the modifications and consider the revised protocol to be acceptable.
