Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNIT NO. 1
RELIEF REQUEST

In our letter dated August 14, 1984 (Serial No. 496), North Anna Power Station requested relief from performing hydrostatic testing on two valves that were replaced on the suction lines to the Outside Recirculation Spray Pumps.

This letter is to notify you that the requested relief, for Unit 1, is no longer necessary because after extensive efforts the valves were successfully hydrostatically tested.

Very truly yours,

W. L. Stewart
