Dear Mr. Dragoun,

This letter transmits CUA's Final Status Survey Report, prepared in accordance with our approved Decommissioning Plan, for the facility currently licensed under Reactor License R-31, Docket No. 50-77.

All survey data confirm that the facility meets the release criteria for unrestricted use established in the Decommissioning Plan. The facility is ready for NRC confirmatory surveys and, based on previous discussions, it is our understanding that ORISE has been tentatively scheduled to perform this work in early '95.

Should you have any questions regarding this submittal, please contact me.

Sincerely,

Donald R. Luster,
Radiation Safety Officer &
Reactor Administrator
