Gentlemen:

This refers to the inspection conducted by Mr. C. A. Hackney, of this office during the period June 18-19, 1984, of activities authorized by NRC Construction Permit CPPER-103 for Waterford Steam Electric Station, Unit 3, and to the discussion of our findings with you and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included review of corrective actions taken on the three previously identified deviations (50-382/84-23). Within these areas, the inspection consisted of selective review of procedures and representatives records, interviews with personnel, and observations by the inspector. The inspection findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
