

FEB 16 1968

Docket No. 5C-219

Jersey Central Power & Light Company
Madison Avenue at Punch Bowl Road
Morristown, New Jersey 07940

Attention: Mr. John E. Lygan
Vice President

Gentlemen:

At the meeting held on January 26, 1968, with representatives of your Company, Burns and Roe and the General Electric Company, we discussed the results of our review of Amendment No. 27 in regard to the overall Oyster Creek quality assurance program. We indicated at this meeting that additional information would be required to permit us to continue our review of the program. The type of information required was discussed at the meeting and generally concerns the complete organizational structure and the responsibility for the efforts of the various subcontractors.

For all safety associated systems and structures, the organization(s) responsible for establishing the functional requirements and the equipment specifications or drawings including specifications and procedures for shipment, storage and installation, inspection and pre-operational testing should be identified. Quality control systems established and functions performed by the organization(s) involved, during each of the above phases should be discussed. The quality control systems (inspection) should be described with respect to scope, number of people involved and authority.

An organization chart which denotes the quality assurance and quality control roles of various contractors including General Electric, Burns and Roe, Combustion, CB&I, Ebasco, Avery and consultants should be provided. Based on this chart, the mechanism by which the quality assurance and control measures, needs and devices were communicated to all parties concerned should be described. In particular, the method used to incorporate changes in functional requirements and/or specifications or physical changes to plant systems should be discussed and related to the chart. Each organization required

to effectively approve or sign off on a particular component, system or structure should be identified.

We will be available to discuss and clarify any of the foregoing with you.

Sincerely yours,
