Dear Sir:

The Armed Forces Radiobiology Research Institute (AFRRI) will conduct an annual emergency drill on 15 November 1995. The drill will consist of a simulated incident requiring activation of AFRRI's emergency response team and possible evacuation of the building. You are cordially invited to attend the drill.

As last year's drill involved off site response, this drill will be restricted in scope and will principally involve internal AFRRI emergency response assets.

We will conduct a meeting for all controllers and evaluators at 1300 on 14 November 1995 in the Reactor Conference Room.

If you have any questions, please call the Reactor Facility Director, Mr. Mark Moore, or the Staff Nuclear Research Officer, Capt Oscar Lessard, at (301) 295-1290. Thank you for your interest in this important exercise.

E. KEARSLEY
