Subject: License Amendment Application to Revise the Facility Operating License to Reflect the Pending Merger of Operating Companies - Supplemental Information

Ladies and Gentlemen:

The purpose of this letter is to provide supplemental information for a pending license amendment application regarding the Davis-Besse Nuclear Power Station (DBNPS) Unit Number 1 Operating License NPF-3. The Toledo Edison (TE) Company submitted an application dated June 6, 1994 (TE Serial Number 2219), to the NRC for an amendment to the DBNPS Operating License Number NPF-3. The proposed changes reflected the pending merger of the Toledo Edison Company into the Cleveland Electric Illuminating Company. Toledo Edison submitted supplemental information to the initial submittal on July 20, 1994 (Serial No. 2239), November 11, 1994 (Serial No. 2259), April 12, 1995 (Serial No. 2290), and September 19, 1995 (Serial No. 2324).

The initial submittal utilized the nomenclature "NEWCO" as a temporary substitute for the name of the combined operating company. The name of the combined operating company will be the Centerior Electric Company. Accordingly, this name should be substituted wherever "NEWCO" appears in the proposed amendment submittal.

The above information does not affect the conclusions stated in the June 6, 1994 submittal, that the license amendment application does not involve a significant hazards consideration or have a significant impact on the quality of the human environment.

Should you have any questions or require additional information, please contact Mr. William T. O'Connor, Manager - Regulatory Affairs, at (419) 249-2366.

Very truly yours,

MKL/laj
