

3. I have carefully reviewed the Affidavit of Robert M. Gallo submitted in response to the Licensing Board's Order of September 7, 1984. There is nothing in Mr. Gallo's Affidavit which would cause me to change the testimony that I gave previously regarding the effects of blast overpressures on safety-related structures resulting from a gasoline or natural gas explosion.

I hereby certify that the answers are true and correct to the best of my knowledge.
