

SEP 11 1984

Docket No. 50-322

Mr. J. D. Leonard  
Vice President - Nuclear  
Long Island Lighting Company  
175 East Old County Road  
Hicksville, New York 11801

Dear Mr. Leonard:

SUBJECT: SUPPLEMENTAL MOTION FOR LOW POWER OPERATING LICENSE -- PHYSICAL SECURITY PLAN - SHOREHAM NUCLEAR POWER STATION, UNIT 1

The staff's previous approval of the Shoreham Physical Security Plan was based in part on the protection of the TDI emergency diesel generators as vital equipment. As a result of a re-evaluation of your proposed alternative emergency power supplies for operation at up to five percent power, the staff has determined that you should amend the Security Plan to describe the measures that will be used to protect alternative emergency power supply equipment located in the protected area as vital equipment.

Please submit your revised plan for our review and approval upon receipt of this letter. Our evaluation of the revised plan, which will update the evaluation presented in Supplemental Safety Evaluation Report (SSER) Number 5, will be published in a future SSER.

The reporting and/or recordkeeping requirements contained in this letter affect fewer than 10 respondents; therefore, OMB clearance is not required under P.L. 96-511.

Sincerely,

A. Schwencer, Chief  
Licensing Branch No. 2  
Division of Licensing
