Gentlemen:

This refers to the inspection conducted under the Resident Inspection Program by Mr. G. L. Plumlee III of this office during the period July 1-31, 1984, of activities authorized by NRC Operating License DPR-34 for Fort St. Vrain Nuclear Generating Station, and to the discussion of our findings with Mr. D. W. Warembourg, and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included Licensee Action on Previous Inspection Findings, Operational Safety Verification, Surveillance - Refueling, Maintenance, TMI Action Plan Requirement Followup, IE Bulletin Followup, Control Rod Drive Event Followup, and Review of Periodic and Special Reports. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

Within the scope of the inspection, no violations or deviations were identified.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph 2 of the enclosed report.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC Public Document Room unless you notify this office, by telephone, within 10 days of the date of this letter, and submit written application to withhold information contained therein within 30 days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).
