SUBJECT: ISSUANCE OF AMENDMENT NO. 115 TO FACILITY OPERATING LICENSE
NPF-38 - WATERFORD STEAM ELECTRIC STATION, UNIT 3 (TAC NO. M72846)

Dear Mr. Barkhurst:

The Commission has issued the enclosed Amendment No. 115 to Facility Operating License No. NPF-38 for the Waterford Steam Electric Station, Unit 3. The amendment consists of changes to the Technical Specifications (TSs) in response to your application dated July 18, 1991, as supplemented by letters dated March 16, and December 2, 1994, and March 9, and August 30, 1995.

The amendment changes the Appendix A TSs by subdividing TS 3/4.7.6, "Control Room Air Conditioning System," into five separate TSs covering the following three distinct functions: control room emergency air filtration, control room air temperature, and control room isolation and pressurization. The amendment also changes the Bases sections of the TS to reflect the above changes.

A copy of our related Safety Evaluation is also enclosed. A Notice of Issuance will be included in the Commission's next biweekly Federal Register notice.

Sincerely,

Original Signed By:
Chandu P. Patel, Project Manager
