MEMORANDUM FOR: Richard W. Starostecki, Director  
Division of Project and Resident Programs  
Region I

FROM: Darrell G. Eisenhut, Director  
Division of Licensing, NRR

SUBJECT: LICENSING ACTION REVIEW FOR BEAVER VALLEY UNIT I

Your assistance is requested in conducting a review of parts of the enclosed amendment request dated May 21, 1984, for Beaver Valley Unit 1. The review for this item should consist of a complete Safety Evaluation Report (SER) and mini-SALP input. A total of six licensing actions have been opened to address this submittal due to its diversity of subjects. Your review, however, should be confined to the actions entitled "Vessel Irradiation Surveillance" (TAC 55104) and "Assorted Fire Protection TS Changes" (TAC 55105). Appropriate pages covered by these two TACs have been so indicated on the enclosed copy of submittal. This request has been discussed between the NRR Project Manager (Peter Tam) and Don Haverkamp.

If you need further information from the licensee, it should be obtained via the Project Manager. The requested target date is October 31, 1984. Please either confirm the due date or provide a revised date as soon as possible.
