FROM: Donald J. Skovholt, Assistant Director for Quality  
Assurance and Operations, PM

SUBJECT: FINANCIAL QUALIFICATIONS OF WASHINGTON PUBLIC POWER  
SUPPLY SYSTEM, ET AL.: WNP-3 AND WNP-5

Our analysis of the financial qualifications of WPPSS and its associated participants to design and construct the subject facilities appears in SER Supplement No. 1, Section 20.0, dated June 1976. Subsequent to the preparation of our analysis, the Applicants provided additional financial information. The enclosed affidavit of Jim C. Petersen indicates that our review of the additional information leads us to reaffirm our earlier conclusion. The affidavit should be included in the record of these proceedings.
