WASHINGTON PUBLIC POWER SUPPLY SYSTEM - HANFORD NO. 2, DOCKET NO. 50-397

I am forwarding the "General Information" portion of an application
filed by Washington Public Power Supply System for authorization to
Construct and operate a nuclear reactor at the AEC Hanford reservation
site, located in Benton County, Washington. The proposed reactor is
of the boiling water type and is designed for initial operation at
3323 thermal megawatts. Also enclosed is a supplemental construction
cost breakdown furnished by the applicant.

This project is scheduled for safety evaluation in September, 1972. Please advise us prior to that time what additional information you will need to complete your review to determine whether the applicant is financially qualified.

Victor Stello, Jr., Chief
Boiling Water Reactor Branch No. 4
Division of Reactor Licensing
