Gentlemen:

This refers to the routine safety inspection conducted by Messrs. B. H. Little and C. H. Brown of this office from September 1, 1988 through October 15, 1988, of activities at Callaway Plant, Unit 1, authorized by NRC Operating License No. NPF-30, and to the discussion of our findings with Mr. J. The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.
