

WNP-5 Ownership

Washington Public Power Supply System
A JOINT OPERATING AGENCY

P. O. Box 968 3000 GEO. WASHINGTON WAY RICHLAND, WASHINGTON 99352 PHONE (509) 946-9681

Docket Nos. STN 50-508
and STN 50-509

April 20, 1976
G03-76-421

Mr. Benard C. Rusche, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington D. C. 20555

Subject: OWNERSHIP OF WPPSS NUCLEAR PROJECT NO. 5

Dear Mr. Rusche:

The License Application for WPPSS Nuclear Projects Nos. 3 and 5, which was filed with the Nuclear Regulatory Commission on July 15, 1974, indicated that ownership agreements with regard to WPPSS Nuclear Project No. 5 had not been finalized at that time, and that an appropriate amendment to the License Application document would be submitted when those agreements were finalized.

It has now been established that WPPSS Nuclear Project No. 5 will be owned by the Supply System and Pacific Power & Light Company on a joint ownership basis as tenants in common, with the Supply System owning 90% undivided interest and Pacific Power & Light Company the remaining 10%. As with WPPSS Nuclear Project No. 3, the Supply System's 90% share of WNP-5 output will be sold by the Supply System to approximately 100 consumer owned utilities in the Pacific Northwest.

An amendment to the License Application document regarding the ownership agreement for WNP-5 is currently being prepared and will be submitted at a later date.

Very truly yours,

D. L. Renberger
D. L. RENBERGER
Assistant Director -
Generation and Technology
