Module # 41701 for Violation

Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-395/89-14

This refers to the NRC special, onsite inspection conducted by L. Lawyer during the period June 14-15, 1989. The inspection included a review of the events related to an NRC-licensed person that stood a watch without being fully qualified at your V. C. Summer facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records and interviews with personnel.

During the course of this inspection, certain activities were noted which violate NRC requirements. These violations, described in the enclosed report, are under consideration for escalated enforcement action. Accordingly, a Notice of Violation is not being issued for these items, and no response for these items is required at this time. However, please be advised that the number and characteristics of these violations described in the enclosed report may change as a result of further NRC review. These areas will be addressed during the Enforcement Conference scheduled for July 28, 1989, in the Region II Office.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,
