

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

April 24, 1992

NOTE TO: James G. Partlow
Associate Director for Projects
Office of Nuclear Reactor Regulation

FROM: Bruce A. Boger, Director
Division of Reactor Projects III/IV/V
Office of Nuclear Reactor Regulation

SUBJECT: REQUEST FOR EXTENSION OF DUE DATE FOR GREEN TICKET NO. 0007683,
REGARDING APRIL 14, 1992 RESPONSE FROM M. LYSTER, CENTERIOR ENERGY,
TO NRC SAFETY EVALUATION ON GENERIC LETTER 88-01 FOR THE PERRY
NUCLEAR POWER PLANT

The subject action was assigned to DRPW on April 23, 1992, with a due date to the NRR Director's office of May 1, 1992. The subject letter expresses the licensee's objections to staff positions taken in the context of our review of Generic Letter 88-01 issues. The licensee states that those positions, "...are either not consistent with the Commission's Policy Statement on Technical Specification Improvement, or may involve backfits for PNPP pursuant to 10.CFR 50.109, or provide further examples in support of industry comments made during the Regulatory Impact Survey regarding NRC imposition of "requirements" through the use of Generic Letters."

In order to adequately address the licensee's concerns, it will be necessary to coordinate our response with several groups, including DET/EMCB, DOFA/OTSB, and PMAS/PTSB. The technical resolution of these issues will proceed on a schedule independent of this Green Ticket response. We therefore request a two-week extension to the due date for this response. The revised due dates would then be May 15, 1992, for delivery to the NRR Director's office, and May 20, 1992, for delivery to the EDO's office.

B. A. Boger for

Bruce A. Boger, Director
Division of Reactor Projects III/IV/V
Office of Nuclear Reactor Regulation

APPROVAL: *New date is reasonable.*
