Document Control Desk
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: Technical Specification Change Request No. 165, Revision 2
Fire Service System

Reference A: FPC to NRC Letter dated August 18, 1989, 3F0889-12
B: NRC to FPC Letter dated April 30, 1990, 3N0490-23
C: FPC to NRC Letter dated February 22, 1991, 3F0291-08

Dear Sir:

Florida Power Corporation hereby submits Technical Specification Change Request No. (TSCRN) 165, Fire Service System, Revision 2, which provides corrections to the Technical Specification Index pages and Section 6.9.2, Special Reports. Two TSCRN's, No. 165, Fire Service, and No. 173, Radiological Effluents, were under simultaneous review by the NRC and the issuance of the amendment for either would necessitate changes in the Index pages and Special Reports Section of the other. Amendment No. 141 relocating the Radiological Effluent Technical Specifications was issued on May 4, 1992, thereby requiring revisions be made to the Index pages and Section 6.9.2 of TSCRN 165. The proposed replacement pages are provided.

The revised pages do not adversely affect the safety significance or Sholly evaluation provided with the February 22, 1991 submittal of TSCRN 165.

Sincerely,

P. M. Beard, Jr.
Senior Vice President
Nuclear Operations
