Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

License No. DPR-35
Docket No. 50-293

Subject: Pilgrim Station Initial and Requalification Training Program

Dear Sir:

In Generic Letter No. 84-14, "Replacement and Requalification Training Program" dated May 11, 1984 you requested licensees to include in the FSAR either the current requalification training program and initial operator training program, or a specific reference to the program of record.

The Pilgrim Nuclear Power Station (PNPS) Training Manual includes both our initial operator training program and our requalification training program. These programs can be found in Sections 3.1.1 and 3.1.2 respectively. Our requalification training program meets the requirements of Appendix A to 10CFR Part 55. Controlled Copy No. 20 which is presently assigned to D. Beckham, Office of Nuclear Reactor Regulation, is reassigned to you and transmitted with this letter. This copy should be considered our program of record. The PNPS Training Manual is a controlled document which is updated regularly. It will be specifically referenced in our July, 1985 update to the Pilgrim Station FSAR. We feel this is adequate for your needs.

Should you have any questions, please contact us.

Very truly yours,

W.D. Harrington
