SERVED SEP 28 1984

Dear Ms. Holt:

I would like to thank you for your efforts in contacting the Indian Point intervenor groups about my tour of the Indian Point plant. I know how difficult it is to reach all the right people and then try to get agreement on one or two representatives from nine different groups. I really appreciate the time and energy you invested in this project. I'd also like to apologize for all the confusion which only made your job harder.

Thank you again for your help.

Sincerely,

James K. Asselstine
