Docket No. 50-346

Toledo Edison Company  
 ATTN: Mr. Richard P. Crouse  
 Vice President, Nuclear  
 Edison Plaza - Stop 712  
 300 Madison Avenue  
 Toledo, Ohio 43652

Gentlemen:

With an application dated August 27, 1984, your Company remitted Check No. 407358 in the amount of \$300. This application proposed certain Technical Specification changes relating to (1) a revision to the Reactor Vessel Materials Irradiation Surveillance Schedule, and (2) flow verification of the Auxiliary Feedwater System for the Davis-Besse Nuclear Power Station Unit No. 1. Your Company determined that a \$300 application fee is appropriate since the application involved two requests.

The revised 10 CFR 170 that became effective on June 20, 1984 (copy enclosed), requires that licensees remit a single application fee of \$150 with each application for license amendment, relief, exemption or other requests. This single \$150 application fee is appropriate per application regardless of the number of changes requested by the application or the number of units involved. Therefore, a refund of \$150 is due your Company. Rather than refund the \$150 to your Company, we would like to apply it to your next application. You may do this by simply referencing the overpayment remitted by Check No. 407358 dated August 23, 1984, and received by us on September 5, 1984. If this transaction does not meet with your approval, do not hesitate to let us know and we will refund the \$150 to your Company.

For your information, a brief discussion of fees for applications for license amendment and other requests filed before and after June 20, 1984, is contained in Enclosure 2 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by  
 Reba M. Diggs
