Docket No. 50-346

Mr. Richard P. Crouse
Vice President - Nuclear
Toledo Edison Company
Edison Plaza - Stop 712
300 Madison Avenue
Toledo, Ohio 43652

Dear Mr. Crouse:

SUBJECT: DENIAL OF AMENDMENT REQUEST - GRACE PERIOD FOR
PERFORMING MISSED SURVEILLANCES

By letter dated November 5, 1982 (No. 872) and modified by letters dated July 1, 1983 (No. 961) and August 18, 1983 (No. 979) Toledo Edison Company requested amendment of Appendix A to Facility Operating License No. NPF-3. In this request, Toledo Edison Company proposed to modify Technical Specification Sections 3.0.3 and 4.0.3 and add Section 3.0.5. These modifications would be in agreement with the wording of corresponding sections of the Babcock and Wilcox Standard Technical Specifications, NUREG-0103, Rev 4. Amendment No. 71, dated July 18, 1984, incorporated these proposed changes into the facility operating license.

Your application and modifying submittals also proposed the addition of Section 4.0.3.1. This proposal was evaluated separately from the remainder of your application. This section would provide a grace period of 12 hours after discovery of a missed surveillance due to administrative error before the provision of Section 4.0.3 would apply. The Commission has determined that your proposed Section 4.0.3.1 would have limited application to the surveillance requirements contained in the Davis-Besse Facility Operating License and would be subject to potential misinterpretation; therefore, your proposed addition of Section 4.0.3.1 is denied. The Safety Evaluation supporting this decision is enclosed in this letter.
