Re: University of Florida Training Reactor
Facility License: R-56, Docket No. 50-83
Revised Emergency Plan

Gentlemen:

This letter is in response to your letter dated June 4, 1984 in which the NRC approved the revised Emergency Plan for the University of Florida Training Reactor (UFTR) and requested to be informed of its complete implementation. The UFTR Emergency Plan was approved by our Reactor Safety Review Subcommittee prior to submission on October 15, 1983. Basically it has been shown to be properly implemented for three (3) quarterly emergency drills since then. Following the RSRS recommendations on September 20, 1984 and as requested in the June 4th letter, the date on which complete implementation of the UFTR Emergency Plan is considered to have occurred is set as September 21, 1984.

If you need further information, please let us know.

Sincerely,

A handwritten signature in cursive script that reads "William G. Vernetson".

William G. Vernetson
Acting Director of
Nuclear Facilities

WGV/ps
