

SEP 19 1984

Docket No. 50-382

Mr. J. M. Cain  
President & Chief Executive Officer  
Louisiana Power & Light Company  
317 Baronne Street  
New Orleans, Louisiana 70160

Dear Mr. Cain:

SUBJECT: MISSING OR VOIDED MERCURY COMPANY NCRs

On June 13, 1984, the staff identified 23 areas of potential safety concern and requested additional information from LP&L needed prior to the staff making its licensing decision on the Waterford Unit 3 facility.

As previously discussed with your staff on August 10, 1984, and at the public meeting held on August 17, 1984, at NRC Headquarters in Bethesda, Maryland, the staff requests that LP&L obtain or account for all missing or voided Mercury Company NCRs. This should include all NCRs entered into the NCR system, as well as those rejected by Quality Management. You should also determine the basis for voiding.

You indicated that this issue would be addressed in your response to Item 6 of our letter to J. M. Cain of June 13, 1984.

~~CONFIDENTIAL~~

Dennis M. Crutchfield  
Assistant Director for Safety  
Assessment  
Division of Licensing
