Docket No. 50-404

Virginia Electric and Power Company
ATTN: Mr. W. L. Stewart
Vice President - Nuclear Operations
Post Office Box 26666
Richmond, Virginia 23261

Gentlemen:

By application dated July 8, 1982, your Company requested that the Office of Nuclear Reactor Regulation (ONRR) staff extend the latest construction completion date for Construction Permit No. CPPR-114 for the North Anna Power Station Unit No. 3. A Class II fee (\$1,200) was remitted with this application pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the ONRR staff, it has been determined that this application should be exempted from the fee requirements of 10 CFR 170 of the March 23, 1978 regulations since no review had commenced on it prior to the time it was determined the amendment was no longer needed. On this basis, we have concluded that an exemption, pursuant to 10 CFR 170.11(L), from the fee requirements is authorized by law and such exemption is otherwise in the public interest and is hereby granted for the July 8 application. Therefore, a refund of \$1,200 is appropriate. Accordingly, we have concurrently authorized the Division of Accounting and Finance to refund \$1,200 to your Company. Refunds are generally processed within a two-week period.

Sincerely,

Original Signed by
Wm. O. Miller
