Vincent S. Boyer being first duly sworn according to law deposes and states:

1. My name is Vincent S. Boyer. I am Senior Vice President, Nuclear Power, of Philadelphia Electric Company. In this position I have overall responsibility for the nuclear power activities of the Company including Limerick Generating Station.

2. I have reviewed my affidavit of September 4, 1984 filed in response to the Board's requirements (Tr 12,285). At this time, the estimated readiness of Limerick I for fuel load is the end of the first week of October, 1984.

3. Applicant's estimated fuel loading date is based upon the current completion status of plant construction, miscellaneous testing and startup activities, as determined at monthly Project Review Meetings, weekly Integrated Schedule Review Meetings, weekly Project Startup Test Results Review Meetings, and the closing of items recently identified in NRC Inspection Reports.
