

INTEGRATED MATERIALS PERFORMANCE EVALUATION PROGRAM  
QUESTIONNAIRE

**Georgia Agreement State Program**  
**Reporting Period: May 13, 2016 to April 24, 2020**

Note: If there has been no change in the response to a specific question since the last IMPEP questionnaire, the State or Region may copy the previous answer, if appropriate.

**A. GENERAL**

1. Please prepare a summary of the status of the State's or Region's actions taken in response to each of the open recommendations from previous IMPEP reviews.

1. Technical Quality of Licensing Actions

- a. Verify that all previously approved RSOs for medical licenses have an attestation by a preceptor RSO, including that the individual has completed training in the radiation safety, regulatory issues and emergency procedures for the appropriate license type.

This recommendation was completed between Nov 2017 and March 2018. We have continued verifying that all new RSO meet the above criteria before approving them on the license as a RSO.

- b. Develop and implement training and guidance what provides the staff with the tools necessary to accurately complete the Program's pre-licensing requirements for each new license.

This recommendation was completed on August 2, 2016. The forms have been updated twice since that date. All the staff have been given training on how to use the forms. If the licensee is an unknown entity, the following steps must be performed:

- a site visit,
- completion of the pre-license forms
- management approval
- mail the licensee their license after management approval

2. Technical Quality of Inspections

- a. The Program develop and implement training for inspectors on the examination of the written directives (prescribed vs administered dose); and NRC Inspection Procedure 87132 (brachytherapy) issued on February 26, 2015.

The staff viewed the webinar on July 12, 2016. This continues to be an ongoing process as newer staff comes up to speed. Discussions regarding WDs are held at our staff meeting on a case by case basis.

3. Status of the Materials Inspection Program

Implement corrective actions and make necessary adjustments to ensure satisfactory program performance is sustained with regard to reciprocity inspections.

The Program implemented a policy requiring all inspectors the autonomy to select a priority 1, 2, or 3 inspection during the first six months of the calendar year. After that time, reciprocity inspections would be assigned to meet the 20% criteria. In question B. II. 14 below lists the percentage of reciprocity inspections completed by year since the last IMPEP.

4. Staff Retention

Retention state-wide, not just within EPD or our Agreement State Program has always been a problem. As staff have left, exit interviews are conducted and the reasons staff gave as to why they are leaving the program are analyzed. Reasons for departure vary widely, although salaries and lack of promotion potential were common contributing factors. The Air Protection Branch Chief met with the Human Resources Director and with the Director of the Georgia Environmental Protection Division to discuss issues involving staff retention for the entire air branch since this issue was not unique to the radioactive materials staff. One outcome of these discussions was to create a path for upward mobility in the Radiation Protection Programs. This was accomplished in April 2017 by creating a Program Manager - 1 position (held by Irene Bennett) and a team leader position (Barty Simonton).

In September 2018, the Georgia Department of Natural Resources Office of Human Resources expanded the "Environmental Specialist 4 (ES - 4)" position to include Subject Matter Experts - individuals who add high value to the organization, show team leadership ability, have exceptionally high technical proficiency and display excellent judgement and decision-making skills. Staff demonstrating these characteristics can be recommended by management to the Division for this promotion. Although the ES - 4 position is reserved for a select few high performing individuals, the expansion of this position to include Subject Matter Experts offers an opportunity for promotion along a non-managerial track to the staff. Technical staff now have promotion potential positions to work towards rather than looking for those opportunities elsewhere. Several staff members will be considered for ES4 promotions when they become "Fully Qualified".

The Branch Chief continues to meet with Human Resources representatives to discuss position reclassification for staff. A reclassification would result in a pay increase for staff. The process is ongoing and will take time to accomplish. This is not a current priority for human resources since both Radiation Protection Programs had very little problem finding good candidates for vacant positions.

As part of a separate effort, the Air Protection Branch Chief met with all staff individually (prior to David Matos being brought on as Program Manager in October 2016) to obtain thoughts and ideas on how the work environment could be improved. Some of the feedback obtained included: having staff do only licensing or inspection (not both), creating more templates for licensing to ensure accuracy, and improving the training process to make it more efficient. After collecting all of the feedback, the Branch Chief decided that the most critical need was to ensure licensing accuracy. The subsequent initiative, which was led by a lean six sigma green belt, had the objective of "consolidating, revising, and adding adequate technical detail to existing procedures and developing licensing templates for the major licensing types." A presentation on this initiative was held for the Environmental Protection Division's Director on May 17, 2018. The work that was completed and the suggested path forward were approved. The Georgia Agreement State Program held training on June 26, 2018, for the staff to go over all of the revisions to the procedures and to discuss how to use the

flowcharts that were created. David Matos and Irene Bennett, who both were part of this Lean Six Sigma Team, have led multiple efforts in continuous improvement since then.

## B. COMMON PERFORMANCE INDICATORS

### I. Technical Staffing and Training

2. Please provide the following organization charts, including names and positions:
  - (a) A chart showing positions from the Governor down to the Radiation Control Program Director; [See Encl 2- B.I.2.\(a\) EPD DNR Structure](#)
  - (b) A chart showing positions of the radiation control program, including management; and [See Encl 2- B.I.2.\(b\)-1 Rad Organizational Chart and Encl 2- B.I.2.\(b\)-2 Org Chart with phone numbers](#)
  - (c) Equivalent charts for sealed source and device evaluation, low-level radioactive waste and uranium recovery programs, if applicable.
  
3. Please provide a staffing plan, or complete a listing using the suggested format below, of the professional (technical) full-time equivalents (FTE) applied to the radioactive materials program by individual. Include the name, position, and, for Agreement States, the fraction of time spent in the following areas: administration, materials licensing & compliance, emergency response, low-level radioactive waste, uranium recovery, other. If these regulatory responsibilities are divided between offices, the table should be consolidated to include all personnel contributing to the radioactive materials program. If consultants were used to carry out the program's radioactive materials responsibilities, include their efforts. The table heading should be:

Name	Position	Area of Effort	FTE%	
David Matos	Program Manager 2	Administrative (Materials Licensing & Compliance (Audits))	80 20	100
Irene Bennett	Program Manager 1	Administrative Materials Licensing & Compliance (Audits, Qualification process)	60 40	100
Stacy Allman	Environmental Specialist	Materials Licensing & Compliance Emergency Response (Lab work)	95 5	100
John Hays	Environmental Specialist	Materials Licensing & Compliance Emergency Response (Exercise participation)	95 5	100
Leslines Leveque	Environmental Specialist	Materials Licensing & Compliance		100
Gregory Reese	Environmental Specialist	Materials Licensing		100
Shatavia Walker	Environmental Specialist	Materials Licensing & Compliance		100
Roger Wilson	Environmental Specialist	Materials Licensing & Compliance Emergency Response (Exercise participation)	95 5	100
Barty Simonton	Team Leader	Emergency Response Admin (Instrument Calibration, etc).	90 10	10

Liz Seale	Environmental Specialist	Materials Licensing & Compliance Emergency Response (Exercise & Lab work)	25 75	25
Sean Hays	Environmental Specialist	Materials Compliance Emergency Response (Exercise & Lab work)	10 90	10
Vacancy (Sheree Butler)	Environmental Specialist	Materials licensing & Compliance Emergency Response	95 5	100
Vacancy (Hybrid Position)	Environmental Specialist	Materials licensing & Compliance Emergency Response	50 50	50

4. Please provide a listing of all new professional personnel hired into your radioactive materials program since the last review, indicate the date of hire; the degree(s) they received, if applicable; additional training; and years of experience in health physics or other disciplines, as appropriate.

The Program hired a number of new staff since the latest review period. We hired two in November 2017 and one in July 2019. Enclosure 1 lists the requested information for each new staff member. See Enclosure 1

5. Please list all professional staff who have not yet met the qualification requirements for a radioactive materials license reviewer or inspector. For each, list the courses or equivalent training/experience the staff need and a tentative schedule for completion of these requirements.

See Enclosure 1

6. Identify any changes to your qualification and training procedure that occurred during the review period.

The qualification and training procedures were updated twice since the last IMPEP 2016.

Revision 7 was updated in April 2017

Revision 8 was updated in May 2019

7. Please identify the technical staff that left your radioactive materials program during the review period and indicate the date they left.

Joel Mims, retired March 31, 2020 (18 years X-ray and 12 years in RMP)

Irvin Gibson, left on June 28, 2019 (3 years in RMP)

Monica Johnson, left on February 28, 2019 (3 years in RMP)

Yoshika Eason, was terminated in July 26, 2017 (2 years in RMP)

8. List any vacant positions in your radioactive materials program, the length of time each position has been vacant, and a brief summary of efforts to fill the vacancy.

Currently the program has 2 vacancies, however one was filled with an expected start date in mid- to late-April (depending on COVID-19 situation, since she is a critical EPD Lab supervisor). This was the vacancy created by Joel Mims retiring on March 31, 2020, so there was almost no length of time vacant.

The second vacancy was the hybrid position (50% Radioactive Materials Program, 50% Environmental Radiation Program) occupied previously by Irvin Gibson, it has been held open since April 2019 (approximately 9 months) to determine the need to fill. Several candidates from the last hiring pool were interested and are potentially good fits, however we are currently evaluating the future of this position.

9. For Agreement States, does your program have an oversight board or committee which provides direction to the program and is composed of licensees and/or members of the public? If so, please describe the procedures used to avoid any potential conflict of interest.

No, we do not have any such oversight board.

## II. Status of Materials Inspection Program

10. Please identify individual licensees or categories of licensees the State is inspecting less frequently than called for in NRC's Inspection Manual Chapter (IMC) 2800 and explain the reason for the difference. The list only needs to include the following information: license category or licensee name and license number, your inspection interval, and rationale for the difference.

None, The Program's goal is to schedule all inspections within the +/- 25% of their due date, but with periodicity specified in IMC 2800. Enclosure (2) shows the different inspection codes and frequencies utilized.

11. Please provide the number of routine inspections of Priority 1, 2, and 3 licensees, as defined in IMC 2800 and the number of initial inspections that were completed during each year of the review period. Numbers below obtained from Enclosure 3

May 13, 2016 - December 31, 2019 Routine Inspections Completed:

Priority 1	Priority 2	Priority 3	Initial
1	16	15	14

January 1, 2017 - December 31, 2017 Routine Inspections Completed:

Priority 1	Priority 2	Priority 3	Initial
9	18	27	9

January 1, 2018 – December 31, 2019 Routine Inspections Completed To Date:

Priority 1	Priority 2	Priority 3	Initial
6	25	21	13

January 1, 2019 – December 31, 2019 Routine Inspections Completed To Date:

Priority 1	Priority 2	Priority 3	Initial
6	21	27	8

January 1, 2020 – March 27, 2020 Routine Inspections Completed To Date:  
(Due to COVID-19 crisis, no inspections have been performed since mid-March)

Priority 1	Priority 2	Priority 3	Initial
2	4	5	2

12. Please submit a table, or a computer printout, that identifies inspections of Priority 1, 2, and 3 licensees and initial inspections that were conducted overdue.

At a minimum, the list should include the following information for each inspection that was conducted overdue during the review period:

- (1) Licensee Name
- (2) License Number
- (3) Priority (IMC 2800)
- (4) Last inspection date or license issuance date, if initial inspection
- (5) Date Due
- (6) Date Performed
- (7) Amount of Time Overdue
- (8) Date inspection findings issued

See Enclosure 4 – IMPEP Late Inspections (yellow highlighted items are summarized below)

License Name	License #	Priority	Priority Change	Date Due	Date Performed	Amount of Time Overdue	Inspection Findings
Sowega Test Srv	GA 923-1	1	N/A	3/15/18	4/18/19	399 days	PT 37 written Security Plan

License Name	License #	Priority	Priority Change/License Issue Date	Date Due	Date Performed	Amount of Time Overdue	Inspection Findings
NE GA MED Center-Braselton	GA 1664-1	3	Installed a HDR in 2017 and did not change the Priority from 5 to 3	6/2/17	1/29/20	971	Security of the HDR
Northside Hospital – Mobil Nuclear Card	GA 1697-1	initial	License issued 3/29/17	9/29/17	2/8/19	497	No violations

13. Please submit a table or computer printout that identifies any Priority 1, 2, and 3 licensees and initial inspections that are currently overdue, per IMC 2800. At a minimum, the list should include the same information for each overdue inspection provided for Question 12 plus your action plan for completing the inspection. Also include your plan for completing the overdue inspections.

At present date all of our pending inspections for Priority 1, 2, 3 and initials are within the acceptable schedule tolerances.

14. Please provide the number of reciprocity licensees that were candidates for inspection per year as described in IMC 1220 and indicate the number of reciprocity inspections of candidate licensees that were completed each year during the review period.

#### 2016 Reciprocity Licenses

Reciprocity Licensees	Inspections Completed
38	8

#### 2017 Reciprocity Licenses

Reciprocity Licensees	Inspections Completed
41	10

#### 2018 Reciprocity Licenses

Reciprocity Licensees	Inspection Completed
13	4

#### 2019 Reciprocity Licenses

Reciprocity Licensees	Inspection Completed
8	2

#### 2020 Reciprocity Licenses Jan 1 – March 27, 2020

Reciprocity Licensees	Inspection Completed
9	1

### III. Technical Quality of Inspections

15. What, if any, changes were made to your written inspection procedures during the reporting period?

We revised our Inspection procedures four times since the last IMPEP 2016

Revision 3 – Oct 2016

Revision 4 – Oct 2017

Revision 5 – March 2018

Revision 6 - Sept 2019

16. Prepare a table showing the number and types of supervisory accompaniments made during the review period. Include:

<u>Inspector</u>	<u>Supervisor</u>	<u>License Category</u>	<u>Date</u>
------------------	-------------------	-------------------------	-------------

See Enclosure 6

17. Describe or provide an update on your instrumentation, methods of calibration, and laboratory capabilities. Are all instruments properly calibrated at the present time? Were there sufficient calibrated instruments available throughout the review period?

All instruments are sent back to a NVLAP certified calibration facility (in our case QalTek, Ludlum, and Thermo Eberline). All instruments in use were calibrated and any that were not operable or not calibrated were removed from service. We maintained a sufficient supply of instruments as the calibrations were rotated through an approximate 3 month time period each year. We have over 100 instruments total (ion chambers, gm instruments, alpha survey instruments, etc.) and no more than half of each kind were out for calibration at one time. Encl 6 is a spreadsheet of all the instruments, make, model, and calibration dates. Enclosure 7 for calibration list.

### IV. Technical Quality of Licensing Actions

18. How many specific radioactive material licenses does your program regulate at this time?

We currently have 393 licensees.

19. Please identify any major, unusual, or complex licenses which were issued, received a major amendment, were terminated, decommissioned, submitted a bankruptcy notification or renewed in this period.

Decommissioning of 2 licenses

Unitech Service Group – GA 894-1- Terminated 10/23/18

Imerys Kaolin – GA 903-1 – Terminated 6/5/18

20. Discuss any variances in licensing policies and procedures or exemptions from the regulations granted during the review period.

We have not granted any variances in licensing policies and procedures from the regulations.

21. What, if any, changes were made in your written licensing procedures (new procedures, updates, policy memoranda, etc.) during the reporting period?

We have updated the licensing procedures twice since the reviewing period. Revision 4 was updated on October 2016 and Revision 5 was updated April 2017.

22. Identify by licensee name and license number any renewal applications that have been pending for one year or more. Please indicate why these reviews have been delayed and describe your action plan to reduce the backlog.

We do not have any licensing renewal actions that have been pending for one year or more.

We also did not have any licensing actions that took over one year.

63 of 1,325 licensing actions took over the allotted NRC 90 or 180-day processing times.

See Enclosure 5 – IMPEP Timely Licensing (filters applied)

V. Technical Quality of Incident and Allegation Activities

23. For Agreement States, please provide a list of any reportable incidents not previously submitted to NRC (See Procedure SA-300, *Reporting Material Events*, for additional guidance, OMB clearance number 3150-0178). The list should be in the following format:

<u>Licensee Name</u>	<u>License #</u>	<u>Date of Incident/Report</u>	<u>Type of Incident</u>
----------------------	------------------	--------------------------------	-------------------------

Not Applicable – all reportable incidents have been submitted to the NRC.

24. Identify any changes to your procedures for responding to incidents and allegations that occurred during the period of this review.

Last procedural changes were made in August 2016.

C. **NON-COMMON PERFORMANCE INDICATORS**

I. Compatibility Requirements

25. Please list all currently effective legislation that affects the radiation control program. Denote any legislation that was enacted or amended during the review period.

No legislation was enacted that effected the radiation control program.

26. Are your regulations subject to a "Sunset" or equivalent law? If so, explain and include the next expiration date for your regulations.

No.

27. Please review and verify that the information in the enclosed State Regulation Status (SRS) sheet is correct. For those regulations that have not been adopted by the State, explain why they were not adopted, and discuss actions being taken to adopt them. If legally binding requirements were used in lieu of regulations and they have not been reviewed by NRC for compatibility, please describe their use.

The Rules were updated for RATS 2013-2, 2018-1 and 2018-2 and Regulation Review Letter to D. Matos ML19178A323 and were adopted on March 17, 2020.

28. If you have not adopted all amendments within three years from the date of NRC rule promulgation, briefly describe your State's procedures for amending regulations in order to maintain compatibility with the NRC, showing the normal length of time anticipated to complete each step.

II. Sealed Source and Device (SS&D) Evaluation Program

29. Prepare a table listing new and amended (including transfers to inactive status) SS&D registrations of sources and devices issued during the review period. The table heading should be:

<u>SS&amp;D Registry Number</u>	<u>Manufacturer, Distributor or Custom User</u>	<u>Product Type or Use</u>	<u>Date Issued</u>	<u>Type of Action</u>
---	---	--------------------------------	------------------------	---------------------------

30. Please include information on the following questions in Section A, as they apply to the SS&D Program:

Technical Staffing and Training - Questions 2-9  
 Technical Quality of Licensing Actions - Questions 18-22  
 Technical Quality of Incident and Allegation Activities - Questions 23-24

III. Low-level Radioactive Waste Disposal Program

31. Please include information on the following questions in Section A, as they apply to the Low-Level Radioactive Waste Disposal Program:

Technical Staffing and Training - Questions 2-9  
 Status of Materials Inspection Program - Questions 10-14  
 Technical Quality of Inspections - Questions 15-17  
 Technical Quality of Licensing Actions - Questions 18-22  
 Technical Quality of Incident and Allegation Activities - Questions 23-24

IV. Uranium Recovery Program

32. Please include information on the following questions in Section A, as they apply to the Uranium Recovery Program:

Technical Staffing and Training - Questions 2-9  
 Status of Materials Inspection Program - Questions 10-14  
 Technical Quality of Inspections - Questions 15-17  
 Technical Quality of Licensing Actions - Questions 18-22  
 Technical Quality of Incident and Allegation Activities - Questions 23-24

MATERIALS REQUESTED TO BE AVAILABLE FOR  
THE ON-SITE PORTION OF AN IMPEP REVIEW

Please have the following information available for use by the IMPEP review team when they arrive at your office:

- List of open license cases, with date of original request, and dates of follow-up actions.
- List of licenses terminated during review period.
- Copy of current log or other document used to track licensing actions.
  - List of all licensing actions completed during the review period (sorted by license reviewer, if possible).
  - Copy of current log or other document used to track inspections.
  - List of all inspections completed during the review period (sorted by inspector, if possible).
  - List of inspection frequencies by license type.
  - List of all allegations occurring during the review period. Show whether the allegation is open or closed and whether it was referred by NRC.
- List of all licenses that your agency has imposed additional security requirements upon.

ALSO, PLEASE HAVE THE FOLLOWING DOCUMENTS AVAILABLE:

- |   |   |
|---|---|
| <ul style="list-style-type: none"> <li>• All State regulations</li> <li>• Statutes affecting the regulatory authority of the State program</li> <li>• Standard license conditions</li> <li>• Technical procedures for licensing, model licenses, review guides</li> <li>• SS&amp;D review procedures, guides, and standards</li> <li>• Instrument calibration records</li> <li>• Inspection procedures and guides</li> <li>• Inspection report forms</li> </ul> | <ul style="list-style-type: none"> <li>• Documented training plan, if applicable</li> <li>• Records of results of supervisory accompaniments of inspectors</li> <li>• Emergency plan and communications list</li> <li>• Procedures for investigating allegations</li> <li>• Procedures for investigating incidents</li> <li>• Enforcement procedures, including procedures for escalated enforcement, severity levels, civil penalties (as applicable)</li> <li>• Job descriptions</li> </ul> |
|---|---|

STATE REGULATION STATUS

State: Georgia

Tracking Ticket Number: 19-32  
Date: 08/01/2019

[ # amendment(s) reviewed identified by a \* at the beginning of the equivalent NRC requirement.]

RATS ID	NRC Chronology Identification	Date Due for State Adoption	Incoming Letter	Outgoing Package	Notes
1991-1	Safety Requirements for Radiographic Equipment Part 34 55 FR 843 <b>(Superceded by 1997-5)</b>	01/10/1994	Final	05/22/1991	Georgia has adopted Final Regulations equivalent to RATS ID: 1997-5.

Inspection Type	Priority	Nov #	Due Date	Use Description
Initial	6 months	0	04/09/2016	Contaminated Equipment
Initial	6 months	0	05/12/2016	Mobile Nuclear Medicine
Routine	2 years	1	05/28/2016	Private Practice (Therapy-HDR)
Routine	2 years	0	02/20/2015	Institutional Medical-Mult. Use (Including HDR)
Routine	2 years	0	05/20/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	3 years	7	06/13/2016	Institutional Medical-Mult. Use
Routine	2 years	0	06/19/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	3 years	0	03/23/2014	Institutional Medical-Mult. Use (diagnostic only)
Initial	3 years	0	08/02/2016	Private Practice (Limited Therapy)
Routine	3 years	0	06/05/2016	Institutional Medical-Mult. Use
Attempt	6 months	0	01/15/2016	Portable Moisture Density Gauges, Pb analyzers, etc.
Routine	2 years	0	03/15/2016	Stereotactic Radiosurgery (i.e., Gamma Knife)
Routine	3 years	0	07/02/2016	Mobile Nuclear Medicine
Routine	2 years	0	12/05/2014	Nuclear Pharmacy
Routine	2 years	0	06/27/2015	Institutional Medical-Mult. Use (Including HDR)
Routine	2 years	0	06/18/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	2 years	0	06/12/2016	Broad Scope (Academic) (Type A & B)
Routine	3 years	0	06/06/2016	Mobile Nuclear Medicine
Routine	2 years	0	09/17/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	3 years	0	09/12/2016	Institutional Medical-Mult. Use
Attempt	6 months	0	08/26/2016	Private Practice (Diagnostic Only)
Routine	2 years	0	08/10/2014	Institutional Medical-Mult. Use (Including HDR)
Initial	6 months	0	09/30/2016	Private Practice (Diagnostic Only)
Routine	3 years	4	03/17/2014	Institutional Medical-Mult. Use
Routine	3 years	0	07/11/2016	Institutional Medical-Mult. Use (diagnostic only)
Routine	2 years	0	08/27/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	3 years	0	10/12/2014	Institutional Medical-Mult. Use

Routine	2 years	0	10/07/2016	Nuclear Pharmacy
Routine	3 years	0	12/13/2016	Private Practice (Limited Therapy)
Routine	2 years	0	12/16/2016	Institutional Medical-Mult. Use (Including HDR)
Routine	2 years	9	05/05/2015	Portable Moisture Density Gauges, Pb analyzers,etc.
Routine	2 years	0	12/10/2016	Nuclear Pharmacy
Initial	6 months	0	11/24/2016	Mobile Nuclear Medicine
Routine	1 year	1	12/04/2016	Multiple Job-Site Industrial Radiography
Initial	3 years	0	07/14/2016	Industrial Research & Development
Initial	6 months	0	11/20/2016	Contaminated Equipment
Routine	3 years	0	10/10/2016	Institutional Medical-Mult. Use
Routine	3 years	0	12/11/2016	Private Practice (Limited Therapy)
Routine	3 years	0	12/18/2016	Institutional Medical-Mult. Use (diagnostic only)
Routine	3 years	0	12/17/2016	Institutional Medical-Mult. Use
Routine	3 years	0	12/10/2016	Private Practice (Limited Therapy)
Routine	3 years	0	08/07/2015	Institutional Medical-Mult. Use
Routine	1 year	1	03/09/2017	Multiple Job-Site Industrial Radiography
Routine	2 years	0	04/25/2014	Institutional Medical-Mult. Use (Including HDR)
Routine	3 years	0	04/23/2016	Mobile Nuclear Medicine
Attempt	6 months	0	01/07/2017	Portable Moisture Density Gauges, Pb analyzers,etc.
