Docket No. 50-374

Commonwealth Edison Company
 ATTN: Mr. Dennis L. Farrar
 Director of Nuclear Licensing
 Post Office Box 767
 Chicago, Illinois 60690

Gentlemen:

On December 16, 1983, the Commission issued Operating License NPF-18 (five percent power) for La Salle 2. On March 23, 1984, the license was amended to authorize full (100%) power operation. As required by 10 CFR 170.21 of the Commission's March 23, 1978 fee schedule, an operating license fee of \$302,800 was paid for the issuance of the operating license.

In accordance with Footnote 3 of Section 170.21 of the March 23, 1978 fee schedule, the costs incurred in the processing and issuance of the La Salle 2 operating license have been reviewed and they substantially exceed the maximum fee \$302,800 prescribed by the Commission's regulations for a concurrent review under 10 CFR 170.21 A.(1). Since the maximum fee prescribed by regulation for an operating license has been paid, no additional operating license fee is required for La Salle 2.

Sincerely,

Original Signed by
 Wm. O. Miller
