Docket No. 50-285

Omaha Public Power District
ATTN: Mr. R. L. Andrews
Division Manager - Nuclear Production
1623 Harney Street
Omaha, Nebraska 68102

Gentlemen:

We have received a copy of your application dated April 2, 1984, which was filed with Region IV of the USNRC for review. This application requested relief from certain ASME Code requirements for the Fort Calhoun Station Unit No. 1. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with your application.

Based on information provided by the USNRC staff as the result of their preliminary review of your application, it has been determined that a Class III fee (\$4,000) is appropriate since the review will involve consideration of a single safety issue. Therefore, you are requested to remit the sum of \$4,000 to this office. If the staff's final review of your application reveals that this fee is not appropriate, you will be notified and any necessary adjustments will be made.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
Reba M. Diggs
