Tennessee Valley Authority) 50-328

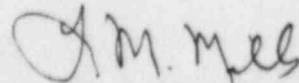

By my June 13, 1984 letter to you, TVA transmitted a request for a license amendment to revise the Physical Security Plan (PSP) for the Sequoyah Nuclear Plant to incorporate the Power Block Concept, as well as other changes. As a result of the comments and questions by C. Gaskins of the NRC in a meeting with TVA on August 21, 1984, enclosed are five copies (Nos. 6 through 10) of revised pages to the proposed license amendment. These revised pages are being provided only for clarification purposes. Also, as stated in the August 21, 1984 meeting, we plan to complete implementation of the revision to the PSP within 120 days after approval by the NRC.
