OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

MEMORANDUM FOR: All parties in the Indian Point
Special Proceeding

FROM: Samuel J. Chilk
Secretary of the Commission

SERVED OCT 5 1984

Enclosed is the transcript of a Commission meeting of October 2, 1984 at which the NRC staff continued to summarize for the Commission the evidence on risk issues which it had presented to the Licensing Board in the Special Proceeding. In view of the parties' most recent comments, the Commission has decided not to conduct a meeting at which the parties to the proceeding can present their views to the Commission on the risk issues. Instead, the Commission will meet to continue its discussion with OGC and OPE on a Commission decision.

In the interim, the Commission invites the parties to submit to it their comments on the staff's October 2, 1984 presentation. These comments should be no more than fifteen pages, double-spaced, and should be received by this office no later than 5:00 p.m. on October 15, 1984.
