OC  
OC

In the Matter of

TEXAS UTILITIES ELECTRIC COMPANY, et al.

(Comanche Peak Steam Electric Station,  
Units 1 and 2)

(Application for  
Operating License)

October 4, 1984

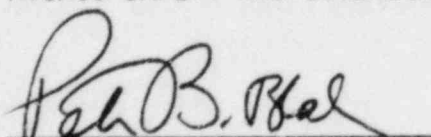

MEMORANDUM

(OA Aspects of Technical Review Team Findings)

SERVED OCT 5 1984

The Atomic Safety and Licensing Board intends to review Texas Utilities Electric Company, et al.'s response to Technical Review Team findings to ascertain whether adequate reasons have been given to believe that deficiencies (in documentation, procedures or the physical plant), either singly or in combination, are not indicative of unsatisfactory operation of the quality assurance program. See In the Matter of NRC-152, Technical Review Team Briefing: Comanche Peak Review (September 18, 1984) at 54. (Mr. Ippolito requests that "Programs should address the root cause of each problem identified and its generic implications.")
