RICHMOND, VIRGINIA 23261

W. L. STEWART
VICE PRESIDENT
NUCLEAR OPERATIONS

September 28, 1984

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
Attn: Mr. James R. Miller, Chief
Operating Reactors Branch No. 3
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Serial No. 221
NO/JHL:acm
Docket Nos. 50-338
50-339
License Nos. NPF-4
NPF-7

Gentlemen:

VIRGINIA ELECTRIC AND POWER COMPANY
NORTH ANNA POWER STATION UNIT NOS. 1 AND 2
PROPOSED TECHNICAL SPECIFICATION CHANGES

Pursuant to 10 CFR 50.90, the Virginia Electric and Power Company requests an amendment, in the form of changes to the Technical Specifications, to Operating Licenses NPF-4 and NPF-7 for North Anna Power Station, Unit Nos. 1 and 2.

The proposed changes to the North Anna Unit Nos. 1 and 2 Technical Specifications are administrative in nature and relate to the Radiological Effluent Technical Specifications (RETS). The Containment Vacuum Steam Ejector (Hogger) was inadvertently left out of our RETS submittals, as a gaseous release path, and was since approved by the NRC on May 5, 1983, in Amendment No. 48 and 31 for North Anna 1 and 2, respectively. Also Figure 5.1-2 was inadvertently deleted in our previous submittals but it should have been retained because it indicates the low population zone. This addition of Figure 5.1-2 should be reflected in Specification 5.1.2. The location of the Met. Tower was left out of our RETS submittals and it should be located on Figure 5.1-1. The table number referenced in North Anna 1 Technical Specification 4.11.2.5 should be corrected to indicate Table 3.3-14 instead of 3.3-13 and Amendment No. 11 was inadvertently left off North Anna Unit 2 Technical Specification 6.10.2n. The proposed changes for North Anna Unit No. 1 are provided in Attachment 1. The proposed changes for North Anna Unit No. 2 are provided in Attachment 2. A discussion of the proposed changes is provided in Attachment 3.

This request has been reviewed and approved by the Station Nuclear Safety and Operating Committee and the Safety Evaluation and Control Staff. It has been determined that this request does not involve an unreviewed safety question as defined in 10 CFR 50.59 and it does not pose a significant hazards consideration as defined in 10 CFR 50.92.
