

Docket Nos.: 50-445
and 50-446

AUG 31 1984

Mr. M. D. Spence
President
Texas Utilities Generating Company
400 N. Olive Street
L. B. 81
Dallas, Texas 75201

Dear Mr. Spence:

Subject: Implementation of TMI Action Plan Item III.D.3.3 at Comanche
Peak Steam Electric Station (Units 1 and 2)

The NRC Staff has reviewed FSAR Amendment No. 50, which addresses changes made to the radioiodine monitoring program. Although your staff has modified the iodine sampling procedure from that previously reported and accepted by the staff, the modification described in FSAR Amendment No. 50 remain consistent with the recommendation of TMI Action Plan Item III.D.3.3 (NUREG-0737). Therefore, the staff considers the modification related in FSAR Amendment No. 50 to be negligible and Item III.D.3.3 acceptably resolved. We propose to document this finding in a future SER supplement.

Sincerely,

ORIGINAL SIGNED BY:

B. J. Youngblood, Chief
Licensing Branch No. 1
Division of Licensing
