Attention: Cecil Thomas
Re: Docket #50-602

Dear Sir:

The University of Texas is actively preparing the response for additional information regarding the Operator qualification and requalification portion of its license submittal dated November 9, 1984. A request to extend the response time to March 15, 1985 is made so that the appropriate attention may be given to each of the questions. Preparation of responses to final questions related to the site visit consumed more time than anticipated and has delayed the completion of the responses related to operator training programs.

Your assistance with this request would be appreciated. Submittal of the response is anticipated in less than two weeks from March 1, 1985.

Sincerely,

Thomas L. Bauer, Ph.D.
Assistant Director/Supervisor
Nuclear Engineering Teaching
Laboratory
