Gentlemen:

SUBJECT: FINAL DECISION ON INDIVIDUAL ENFORCEMENT ACTION

NRC has completed its review of the performance of licensed individuals during the event involving the loss of spent fuel pool cooling on May 12 and 13, 1992. Based on the information in NRC Inspection Report No. 50-445/92-20 and the information obtained during the enforcement conference held in the Region IV office on June 22, 1992, NRC has decided that no enforcement action will be taken against the licensed individuals involved in this event. The affected licensed individuals will be receiving letters informing them of this decision.

One of these licensed individuals has not yet successfully completed an NRC administered requalification examination for the purpose of license renewal. If following the successful completion of facility remedial actions he has resumed performing licensed duties, we would plan to administer a requalification reexamination to this individual for the purpose of license renewal during our next site visit. We will work with your training staff to coordinate the schedule for this reexamination.

If you have any questions, please feel free to contact me or John L. Pellet, Chief, Operator Licensing Section at (817)860-8159.

Sincerely,

*James L. Milhoan*
