Dear Mr. Kovach:

SUBJECT: SAFETY EVALUATION RELATED TO STATION BLACKOUT ANALYSTS, LASALLE COUNTY STATION, UNITS 1 AND 2 (TAC NOS. M68559 AND M68560)

The NRC staff's Safety Evaluation (SE) pertaining to Commonwealth Edison Company's initial responses to the Station Blackout (SBO) Rule (10 CFR 50.63) for LaSalle County Station, Units 1 and 2, was transmitted to you by letter dated March 6, 1992. The staff found your proposed method of coping with an SBO for the LaSalle County Station to be conforming contingent upon the satisfactory resolution of the recommendations presented in the SE. You responded to the staff's SE, and specifically to the recommendations, by letter dated May 15, 1992.

We find your response to the staff's SE to be acceptable as evaluated in the attached Supplemental SE (Enclosure 1). Per 10 CFR 50.63, CECO must implement any hardware and procedural changes associated with the Station Blackout Rule within two years from the date of this letter. You are requested to notify the NRC in writing when Station Blackout changes have been implemented.

This completes the technical review under TAC Nos. M68559 and M68560.

Sincerely,

Original Signed By:

Byron L. Siegel, Project Manager
Project Directorate III-2
Division of Reactor Projects - III/IV/V
Office of Nuclear Reactor Regulation
