

July 27, 1992

Ms. Alice P. Granahan  
36 Croydon Road  
Hingham, Massachusetts 02043

Dear Ms. Granahan:

In a letter of July 2, 1992, Senator Edward M. Kennedy requested that we send you published reports concerning the safety of the Pilgrim Nuclear Power Station (PNPS), located in Plymouth Massachusetts.

Accordingly, I have enclosed the report of January 31, 1992, on the most recent Systematic Assessment of Licensee Performance (SALP). The SALP is the Agency's integrated effort to collect and evaluate available insights and other information on each plant in a structured manner to assess the reasons for a licensee's performance. The SALP is intended to be sufficiently diagnostic to provide a rational basis for allocating U.S. Nuclear Regulatory Commission (NRC) resources and to identify for the licensee's management areas where improvements in the quality and safety of plant operations may be warranted.

Other reports such as safety evaluation reports, inspection reports, and nonproprietary correspondence are available to you and the general public at your Local Public Document Room in the Plymouth Public Library. I hope the enclosed information will help you.

Sincerely,  
Original signed by  
*Thomas E. Murley*  
Thomas E. Murley, Director  
Office of Nuclear Reactor Regulation

Enclosure:  
Pilgrim SALP report dated  
January 31, 1992

cc:  
The Honorable Edward M. Kennedy  
United States Senate  
Washington, DC 20510
