SUBJECT: Arkansas Nuclear One - Unit 1
Docket No. 50-313
License No. DPR-51
ANO-1 Technical Specification Change -
Revision of Figure Titles

Gentlemen:

As requested by your letter to John Griffin dated December 26, 1984 (1CNA128408), we have revised the ANO-1 Technical Specifications to reflect specific time intervals in terms of EFPD for Axial Power Shaping Rod insertion limits. The affected figures and the table of contents page are therefore attached for your review and approval.

In accordance with 10CFR50.92(c), we have determined the proposed amendment to have no Significant Hazards Consideration (SHC) and are including the basis of our SHC determination as an attachment to the proposed changes. Also, a copy of this amendment package is being forwarded to Mr. E. Frank Wilson, Director Division of Environmental Health. The circumstances of this proposed amendment are not exigent or emergency.

Pursuant to 10CFR170.12(c) we are including a check in the amount of \$150 as an application fee.

Very truly yours,

T. Gene Campbell

ATTACHMENT A

SIGNIFICANT HAZARDS CONSIDERATION DETERMINATION

The proposed amendment request does not involve a SHC/NSHC because

- (A) operation of Arkansas Nuclear One in accordance with this change would not:
- 1) involve a significant increase in the probability or consequences of an accident previously evaluated; or
 - 2) create the possibility of a new or different kind of accident from any previously evaluated;
 - 3) involve a significant reduction in a margin of safety; and
- (B) the proposed amendment matches the example checked below: (ref: DLOP 228, Federal Register, Vol. 48, p. 14870).

Examples of amendments that are considered not likely to involve SHC:

- (i) A purely administrative change to technical specifications: for example, a change to achieve consistency throughout the technical specifications, correction of an error, or a change in nomenclature.

BASIS FOR DETERMINATION: This is a nomenclature change only, made per NRC request.
